**LinkedIn:** https://www.linkedin.com/in/asad-abbas-418163294

## SUMMARY

A proactive software engineering student with a solid foundation in **AI , machine learning**, and **data science**. Experienced in developing end-to-end intelligent systems that extract insights and support data-driven decision-making. Skilled in model training, evaluation, and deployment across real-world applications. Passionate about using advanced technologies like deep learning to create innovative, impactful solutions. Continuously exploring new developments in AI to solve complex problems and contribute to meaningful projects that drive real-world change.

## EDUCATION

Strong foundation in Object-Oriented Programming (OOP), Database Management, and Data Structures & Algorithms (DSA), complemented by hands-on experience in software development and system design. Skilled in building scalable applications, optimizing database performance, and applying algorithmic problem-solving techniques to create efficient, maintainable software solutions across various platforms and technologies.

**BSc Software Engineering**                                              **Sep 2022 - Present**
University of Engineering and Technology, Taxila

## SKILLS

- PYTHON
- DATA SCIENCE
- MACHINE LEARNING
- DEEP LEARNING
- NLP
- POWER BI

## Additional Skills:

Effective communications skill
Working effectively with cross-functional teams
